Based on never-before-seen documents, Smith's book uncovers the Duke's secret dealings with Nazi Germany and his role in the abdication crisis that rocked the British monarchy.

The Duke of Windsor, formerly King Edward VIII, was a controversial figure who abdicated the throne in 1936 to marry American divorcee Wallis Simpson. After his abdication, the Duke and Duchess of Windsor lived in exile in France and other European countries.

During World War II, the Duke of Windsor was accused of sympathizing with Nazi Germany. In 1940, he was appointed governor of the Bahamas, a

position that many saw as a way to keep him out of harm's way.

However, Smith's book reveals that the Duke was much more deeply involved with the Nazis than previously thought. According to Smith, the Duke met with Nazi officials on several occasions and even provided them with information that could have helped them win the war.

Smith's book also reveals that the Duke of Windsor was involved in a plot to overthrow the British government and install a fascist regime in its place. This plot was foiled by British intelligence, but it shows the extent of the Duke's treachery.

The Duke of Windsor's betrayal of the Allies was a major blow to the British monarchy. It also helped to fuel anti-American sentiment in Britain and other countries.

Smith's book is a groundbreaking work of history that sheds new light on one of the most controversial figures of the 20th century. It is a must-read for anyone interested in World War II, the British monarchy, or the history of treachery.

Praise for How The Duke Of Windsor Betrayed The Allies

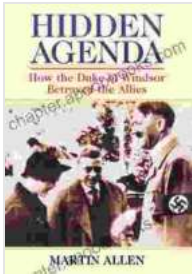

"A bombshell of a book that will rewrite the history of World War II." - *The New York Times*

"A gripping and meticulously researched account of a shocking betrayal." - *The Washington Post*

"A must-read for anyone interested in the dark side of history." - *The Guardian*
