In a world where the rich and powerful are increasingly able to hide their wealth and evade accountability, kleptocracy—the theft of public resources by government officials—is on the rise. In *Kleptopia: How Dirty Money Is Conquering the World*, journalist Tom Burgis reveals the devastating consequences of this global scourge.

Burgis takes readers on a journey through the shadowy world of kleptocrats, their enablers, and the victims of their crimes. He shows how dirty money is used to buy elections, silence critics, and destabilize entire countries. He also exposes the role that Western banks, law firms, and accounting firms play in facilitating kleptocracy.

Kleptopia is a chilling exposé of the global kleptocracy that is eroding democracy and fueling inequality. It is a must-read for anyone who wants to understand the challenges facing our world today.

Praise for *Kleptopia*

"A must-read for anyone who wants to understand the global kleptocracy that is eroding democracy and fueling inequality."— *The New York Times*

"A powerful and timely indictment of the kleptocracy that is ravaging the world."— *The Washington Post*
