The European Community (EC) was established in 1957 by the Treaty of Rome. The EC's initial goal was to create a common market among its six founding members: Belgium, France, Italy, Luxembourg, the Netherlands, and West Germany. However, the EC quickly evolved into a political and economic union, and by the 1960s it was playing a significant role in world affairs.

This book examines the EC's role as an international actor during the 1960s and 1970s, a period of significant change and upheaval in world politics. The author argues that the EC played a key role in shaping the post-war international Free Download, and that its influence was felt in a wide range of areas, from trade to development to security.

The EC and the World Economy

The EC's economic policies had a major impact on the world economy during the 1960s and 1970s. The EC's Common Agricultural Policy (CAP) was a major source of support for European farmers, and it helped to ensure that Europe had a stable food supply. The EC also played a leading role in the creation of the General Agreement on Tariffs and Trade (GATT), which helped to reduce trade barriers between countries.

The EC's economic policies were not without their critics. Some argued that the CAP was too expensive and that it led to overproduction of food. Others argued that the EC's trade policies were too protectionist and that they prevented developing countries from exporting their goods to Europe.

Despite these criticisms, the EC's economic policies had a positive impact on the world economy. The CAP helped to ensure that Europe had a stable food supply, and the EC's trade policies helped to reduce trade barriers between countries. The EC also played a leading role in the creation of the European Monetary System (EMS), which helped to stabilize exchange rates between European currencies.

The EC and Development

The EC was also a major player in the field of development assistance during the 1960s and 1970s. The EC's development policies were based on the principle of solidarity, and the EC provided financial and technical assistance to developing countries in Africa, Asia, and Latin America.

The EC's development policies were not without their critics. Some argued that the EC's aid was too tied to commercial interests, and that it did not do enough to address the root causes of poverty. Others argued that the EC's

development policies were too bureaucratic and that they did not reach the people who needed them most.

Despite these criticisms, the EC's development policies had a positive impact on the developing world. The EC's aid helped to improve living standards in developing countries, and it helped to promote economic development. The EC also played a leading role in the creation of the Lomé Convention, which provided preferential trade terms to developing countries.

The EC and Security

The EC also played a role in the field of security during the 1960s and 1970s. The EC's security policies were based on the principle of collective security, and the EC worked to promote cooperation between its member states in the field of defense.

The EC's security policies were not without their critics. Some argued that the EC was too weak to be an effective security actor, and that it relied too heavily on the United States for its defense. Others argued that the EC's security policies were too focused on Europe, and that they did not take into account the security concerns of other parts of the world.

Despite these criticisms, the EC's security policies had a positive impact on European security. The EC helped to promote cooperation between its member states in the field of defense, and it played a leading role in the creation of the European Political Cooperation (EPC), which provided a forum for political consultation between European governments.

The European Community played a significant role in world affairs during the 1960s and 1970s. The EC's economic, development, and security policies had a major impact on the world, and the EC helped to shape the post-war international Free Download.

The EC's role in world affairs continues to be important today. The EC is now a major economic and political power, and it is a key player in the global economy. The EC is also a major donor of development assistance, and it plays a leading role in the promotion of peace and security in Europe and around the world.
